## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 3-12 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim may not serve as the basis for another multiple dependent claim. And multiple dependent claims must refer to claims in the alternative (i.e. use “or” not “and”). See MPEP § 608.01(n). Accordingly, the claims not been further treated on the merits.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Robison (2,469,078).

Robison discloses a sealing device comprising a plurality of L-shaped seal segments 14 having a flat surface with a hole and a curved surface to contact the cylinder. The seal has a ditch for sealing material 22.

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
